

As you may have heard, Signpost is in a little bit of a financial corner. As a registered charity, we rely on funds from a range of funders, and these have become more scarce in recent months.

There has been a danger of closure of the Greenstead office. We have received lots of support from the Greenstead Community. So, instead of closing down the Centre at Greenstead, we have decided to shut down our Head Office so that we can keep the service going here. There will be some disruption and a reduced service until such time as we can source the funds to bring things back to full strength.

The service remains free to use, but there will be less of it.

Please feel free to approach us, and we will let you know how things are going.

We will try to keep our website at www.sign-post.info up to date with news.

Thank you.

All the Best

Paul Feasey
CEO, Signpost
